Mohammad Sadeghi

Machine Learning Enthusiast

Tabriz, Iran (+98) 914-533-7025 mscode01.php@gmail.com

About

Passionate Machine Learning Enthusiast with hands-on experience in building and optimizing AI models. Skilled in Python, deep learning, and data analysis, with a strong foundation in machine learning algorithms. Constantly exploring new AI technologies and working on real-world projects to solve complex problems. Looking for opportunities to contribute and grow in the field of artificial intelligence and data science.

EXPERIENCE

Machine Learning Enthusiast, Self-driven Projects & Freelance

MONTH 2024 - PRESENT

Developed and deployed **machine learning models** for various real-world applications.

Worked on **deep learning** techniques, including CNNs, RNNs, and transformers.

Conducted data preprocessing, feature engineering, and model optimization.

Built and fine-tuned models using **TensorFlow**, **PyTorch**, and **Scikit-learn**.

Explored and implemented AI solutions in computer vision and NLP.

Collaborated on open-source projects and contributed to the AI community.

EDUCATION

National University Skills, Ardabil — Associate degree

MONTH 2023 - MONTH 2025

PROJECTS

Dr.Aio—Prediction of some disease

MONTH 2024 - MONTH Present

SKILLS

Python (NumPy, Pandas, Scikit-learn, TensorFlow, PyTorch)

Supervised & Unsupervised Learning

Deep Learning (CNNs, RNNs, Transformers)

Computer Vision (OpenCV, YOLO, Vision Transformers)

Natural Language
Processing (NLP, Hugging
Face, BERT)

Model Optimization & Hyperparameter Tuning

LANGUAGES

English, Turkish
